ASWATH DARSHAN K G

aswathdarshan2007@gmail.com | 9750868699 | linkedin.com/in/aswathdarshan | github.com/Aswath-prof

EDUCATION

Amrita Vishwa Vidyapeetham | 2024 – 2028

B.Tech in Artificial Intelligence and Data Science | CGPA: 7.73 (3rd Semester)

EXPERIENCE

Data Analysis Intern — Cognifiz | 2024

Completed a data analysis internship, applying Python-based analytics to real-world datasets.

PROJECTS

NLP Text Classifier — TF-IDF + DistilBERT

GitHub: github.com/Aswath-prof/Aswath-nlp-paper

- Built a regional text classification pipeline combining a TF-IDF baseline with a fine-tuned DistilBERT model.
- Achieved F1 = 0.64 (TF-IDF baseline) and F1 = 0.78 (DistilBERT fine-tune) on validation data.
- Implemented a full preprocessing pipeline: tokenization, text cleaning, and class balancing.
- Packaged the project with reproducible scripts (train, predict, demo) and a Streamlit demo interface.
- Tech stack: Python, scikit-learn, HuggingFace Transformers, pandas, Streamlit, Jupyter Notebook.

CERTIFICATIONS & ACHIEVEMENTS

- Participant, Visa Hackathon at IIT Madras — gained exposure to industry-grade problem-solving environments.
- Data Analysis Internship Certificate — Cognifiz.

TECHNICAL SKILLS

- Languages: Python (Intermediate), Java (Intermediate), C (Basic)
- Tools & Platforms: MATLAB, Cursor IDE, Jupyter Notebook, Git & GitHub
- Libraries & Frameworks: scikit-learn, HuggingFace Transformers, pandas, Streamlit
- Areas of Interest: Natural Language Processing, Machine Learning, Data Analysis

LANGUAGES

- English — Professional Proficiency
- Hindi — Conversational (Spoken)
- Japanese — Basic Conversational (Spoken)
